What is the Affordable Connectivity Program?

The Affordable Connectivity Program (ACP) is a \$14.2 billion government program that extends and modifies the Emergency Broadband Benefit Program (EBB), and continues its aim to help low-income households connect and stay connected to the Internet with a monthly credit. Comcast has been participating in the EBB program since its inception in May 2021, and is proud to continue participating through ACP. All tiers of Xfinity Internet service, including Internet Essentials, will continue to be available to those who qualify for the benefit.

What changes in the transition from EBB to ACP?

- Existing Comcast customers who enrolled in **EBB before December 31, 2021** and who continue into ACP **will see their maximum \$50/month credit decrease to a maximum \$30/month credit after a 60-day transition period**
- Internet Essentials customers currently enrolled in EBB and who continue into ACP will continue to have the full cost of their service covered
- New customers who apply for **ACP after December 30, 2021** may be eligible for up to \$30/month credit toward their Internet bill
- A maximum \$75/month benefit remains available for customers in Tribal Lands

What does ACP cover?

ACP applies to monthly charges for Internet service and mobile data usage and service fees. Qualified households will receive a total credit of up to \$30/month toward Xfinity Internet service, including Internet Essentials, and/or Xfinity Mobile data usage and service fees. Qualified households within Tribal lands will receive up to \$75/month. The amount of the credit depends on the rate for the services that a customer chooses.

If a customer has both Xfinity Internet and Xfinity Mobile service, the ACP benefit will first be applied to the Internet portion of their bill. Any balance will be applied to Xfinity Mobile services. If a customer only has Xfinity Mobile service and no longer has Internet service from Xfinity, they can call 844-389-4681 to enroll in ACP through Xfinity and have the ACP credit applied to their Xfinity Mobile service.
