

HYDRANT FLUSHING

HYDRANT FLUSHING Will begin On October 20, 2025. Flushing and winterizing of the fire hydrants will be conducted between the hours of 7am and 3pm. Flushing will continue through mid-November. Please be advised that you may experience some discoloration of the water during this process. The discoloration of the water is only temporary and does not indicate a problem with the water. If your water does become discolored, turn on an outside faucet to clear the water line before doing any laundry or cleaning. The Augusta Township water department will continue to monitor the water quality during this period to ensure that the water remains safe to drink.

We apologize for any inconvenience this may cause, but flushing is an important part of our system maintenance. Please contact the water department at (517) 662-5813 with any questions or concerns you may have.
