Whereas, the decision to establish an AV counting board versus processing absent voter ballots in the precinct is the local election commission's responsibility.

Whereas, an AV counting board must be established for each precinct.

Furthermore, the election commission must appoint a minimum of three inspectors to each AVCB precinct. A single group of precinct inspectors may process multiple AVCB precincts. Appointments must be made under the same procedures established for the appointment of the precinct inspectors who will serve in the polls. The commission is also responsible for providing a suitable place where the counting board will meet to process and count ballots. More than one AV counting board may be located in the same building or room.

Furthermore, multiple AVCB's mirroring multiple Election Day precincts may utilize the same tabulator with an appropriately assigned ballot program, front and back pages of the Poll book, and ballot containers.
