

DID YOU KNOW?

Your house has a septic system that needs to be maintained.

HEALTH DEPARTMENT
Washtenaw County

Visit the county's health department page for more information.
https://tinyurl.com/WashtenawSeptic

This mailing is a part of a watershed improvement project, working to clean water heading to Lake Erie.

Washtenaw County Conservation District

EGLE

EPA

Septic Tanks hold wastewater long enough for solids to settle out (sludge), and oil, grease, and hair to float to the surface (scum).

Most septic tanks need to be pumped every 3-5 years to prevent costly failures to the system.
